OBJECTIVE

Seeking a position as a Graphic Designer, excited to expand my knowledge and contribute my skills and creativity to deliver amazing products.

EXPERIENCE

Software Engineer

Accenture, Nashville, TN
January 2016 - Present

- Responsible for reading and interpreting application's Design and Technical Documents.
- Drafted Test Conditions and Test Cases to ensure the application behaved exactly as requested by our client.
- Tested software during all phases of development to ensure compliance with business requirements.
- Logged all defects and "show stoppers" encountered while running Test Cases to ensure they were fixed within a timely manner.
- Drafted spreadsheets to ensure all tasks were completed ahead of schedule.
